## Five stars, three yachts, one world.

This small, exclusive fleet is distinguished by an atmosphere of relaxed conviviality rather than formal etiquette. The maritime character of an elegant private yacht allows our international guests to feel free and to be themselves. Our very own 5-star style is, however, also evident in the first-class cuisine and the attentive, discreet level of service – on all three yachts.

The legendary **SEA CLOUD** enchants nostalgics and romantics with its uniqueness and its history, because the decks have always been both a social arena as well as a personal empire at sea. Precious woods, marble fireplaces and golden swan taps – every time you tour the yacht, you will get a unique sense of what her countless stories are made of.

The **SEA CLOUD II** resembles her sister, but she has own personality: The yacht combines the tradition of sailing with modern life and nostalgia with a great deal of freedom. Therefore, discerning cruisers can discover their passion for classic sailing ships, while sailing enthusiasts will become devotees of great voyages. And for anyone who has ever experienced the spectacle of setting sail will know that a voyage on a majestic windjammer is so much more than just a cruise.

There are many river ships, but only one river yacht: the **RIVER CLOUD II**. She sets a romantic course and interprets the maritime nature of our tall sailing ships in her own unique way – exclusive, elegant and completely relaxed.

## Setting a course for special destinations.

New cruise ships are built year after year, becoming bigger and better as par for the course. We, however, have decided to stay small and beautiful: The two hand-sailed windjammers **SEA CLOUD** and **SEA CLOUD II** cruise in the world's finest sailing waters, while our river yacht **RIVER CLOUD II** sails along the most beautiful rivers in the heart of Europe. On the following pages we would like to present to you the colourful programmes for winter 2012/2013 for both tall ships, and also give you an outlook on future voyages for 2013 on all three yachts.

The winter draws our windjammers to where the sun enjoys shining: to idyllic harbours, original Maya states, snorkelling paradises and popular meeting places for sailors in the Lesser Antilles, Cuba and Central America. The ship's course guides you through the Panama Canal to Costa Rica and Panama from one pristine natural paradise to the next and to fantastic national parks. Hikes in the forest canopy, river and boat trips offer deep insights into an unknown world. In spring 2013 they sail back to the western and eastern Mediterranean. **SEA CLOUD II** will also visit the Azores, Northern Europe and the Atlantic coast. And as a special highlight both windjammers will sail around the Canaries on a common course before returning to their warm winter quarters.

**RIVER CLOUD II** revives the former elegance and style of travel and re-discovers the true relaxation of a slower pace. During 2013, it applies to the Dutch and Belgian waterways and along the Rhine, Main, Moselle and Danube: not only for culture and history, but also for recreation and the joy of discovery. Visit the fascinating cities of Amsterdam, Budapest and Vienna, and the idyllic landscapes of the Danube delta, the Wachau region or the IJsselmeer. Four 'taster' trips will give you the perfect opportunity to discover.

## The greatest sailing adventure – follow the trade winds across the Atlantic: Las Palmas – Curaçao

### For sailing enthusiasts: the Atlantic Crossing

Sailing across the endless expanse of the Atlantic Ocean in a tall ship is the dream of many. Make this dream come true on the **SEA CLOUD**. The winds and tidal flows of the trade winds region set your exact westwards course, while you get to experience every one of the legendary four-masted barque's sailing manoeuvres at first hand.

### Cruise along the Columbus route

When Columbus set sail from the Canary Islands on 6 September 1492, he was simply looking for a new route to India, but instead he stumbled upon a new undiscovered continent. Perhaps this trip will hold a new discovery for you too, as you free yourself from the stresses and strains of everyday life.

### Plenty of time for relaxation

For 16 relaxing days, the legendary **SEA CLOUD** will be your home at sea. Tired minds will be given a new lease of life as stress gives way to relaxation. Romantics will feel their imagination take flight as they gaze upon the sails fluttering in the breeze. Set sail for a whole new world!

### A lecturer accompanies the trip

Our expert is on hand to give talks on a wide variety of specialist subjects, packed with knowledge, entertainment and facts. He is also on board to answer any questions you may have.

## The unique Netherlands Antilles and impressions of Central America: Curaçao – Puerto Limón (San José)

### Wonderful sailing and ideal trade winds

The perfect wind conditions that can be found between the south-lying Lesser Antilles and Central America in winter make a tall ship cruise on the **SEA CLOUD** a unique experience with many magnificent hours out at sea.

### Visit two of the ABC islands: Aruba und Curaçao

Aruba and Curaçao make up the A and C of the ABC islands and belong to the Kingdom of the Netherlands. Their distinctive features – including delft tiles, Dutch gable houses, palms and the pastel colours of the Caribbean – make this an enchanting destination. Curaçao boasts a UNESCO World Heritage Site in the shape of its small capital Willemstad.

### Cartagena: a UNESCO World Heritage Site

Many would say that Cartagena is one of the most beautiful colonial towns in the Americas. It was once the richest town in the New World, as well as being a popular target for pirate attacks. A walk through the cordon of fortresses in the historical Old Town is enough to make you feel like you have been whisked back in time.

### A boat trip to Zapatilla – Panama's national marine park

The Zapatilla National Marine Park spans a substantial part of the Bocas del Toro archipelago. This primordial world is still ruled by flora and fauna. Countless islands, mangrove thickets, and palm-lined beaches offer up a slice of paradise both above and below the waterline.

### A lecturer accompanies the trip

A lecturer will accompany this trip to deliver interesting and informative talks on a range of specialist subjects.

### Under white sails on a journey to the unique natural paradise in Costa Rica: Puerto Caldera – Puerto Caldera (San José)

#### Costa Rica's Pacific coast: perfect sailing waters

The Pacific coast is blessed with an abundance of natural beauty, reliable winds, outstanding anchorages, lush green coasts and radiant sunshine. Columbus named Costa Rica "La Huerta", or "the garden", and the name is just as fitting today as it was back then.

#### The volcanic interior

Deep crater lakes and blue lagoons set against a barren landscape: the volcanic regions of Costa Rica reveal a completely different side to this otherwise immensely colourful country. In the Valle Central, the most fertile of the country's valleys, the natural bounty takes a particularly aromatic form with the extensive coffee plants.

#### The unique national parks

The SEA CLOUD brings you to the region's widely spread national parks using the best possible route – the sea. Water birds can be spotted on boat trips through the mangroves in the Palo Verde National Park; the Carara National Park marks the transition from tropical rainforest to dry forest; the blossom in the Pura Vida Gardens offers a veritable rapture of colours; and early risers in the Manuel Antonio Park will be rewarded with once-in-a-life-time sightings of the indigenous animal population.

#### Also on board: biologist Brigitte Fugger

Brigitte Fugger, marine biologist, ecologist, and ornithologist, has led over 150 research voyages. She has worked as a lecturer in tropical ecology and a birdsong expert. She now spends most of her time writing nature guides and producing wildlife films, and frequently works as an on-board lecturer.

Depending on the circumstances, it is possible that another lecturer will be on board for this trip.

### The colonial city of Granada and the beautiful volcanos and jungles of Costa Rica: Puerto Caldera – Puerto Caldera (San José)

#### Costa Rica's Pacific coast – perfect sailing waters

The seas surrounding Costa Rica are the perfect place to go sailing, and the legendary SEA CLOUD is the perfect yacht to sail them. Her course leads you to the widely spread national parks, ensuring that you arrive completely refreshed and ready to begin new adventures on land.

#### Granada – a UNESCO World Heritage Site

With around 400 islands, Lake Nicaragua is the second largest lake in Latin America. On its banks lies the colonial town of Granada. The many sights of the country's oldest city can be easily discovered on foot. With all its magnificent Spanish facades, cathedrals and monasteries, the Old Town, which surrounds a beautifully designed park, is a romantic and fabulously restored treasure.

#### Unique national parks and gardens

Explore the narrow pathways through the rainforest of the Manuel Antonio National Park and discover its menagerie of indigenous animals. Or take a boat trip through the Palo Verde National Park to discover the water birds nestling between the mangroves. The Pura Vida Gardens welcome visitors with a luscious sea of tropical flowers and orchids, while the magnificent beaches on the Islas Tortugas complete the country's diverse landscape.

#### Also on board: biologist Brigitte Fugger

Brigitte Fugger, marine biologist, ecologist, and ornithologist, can tell you everything there is to know about the animal world. She has worked as a lecturer in tropical ecology, has written several nature guides and leads research trips on all of the world's continents.

Depending upon the circumstances, it is possible that another lecturer will be on board for this trip.

### Beach heaven, Mayan culture, the Cuban spirit and a legend beneath the sails: Puerto Limón (San José) – Havana

#### Idyllic beaches on idyllic islands

San Andrés and Roatán are two picture-perfect islands dominated by three distinct colours: the rich green of swaying palm trees, the white sand of the beaches and the deep turquoise of the sea.

#### The world's second largest coral reef

This trip includes a number of fantastic snorkel sites, but the most beautiful is undoubtedly Belize's Lighthouse Reef, which features the famous Great Blue Hole. After the Great Barrier Reef in Australia, this coral reef is the second largest in the world.

#### Mayan cities in Mexico and Belize

There are many fascinating facts about the Mayans, a civilisation that dominated Central America for centuries. Stone ruins stand as testament to their way of life at important sites such as Altun Ha, the former city of Lamanai which lies buried in the jungle, and the famous fort of Tulum, the only coastal Mayan settlement.

#### Two lecturers accompany the trip

Marion Tippmann-Böge will focus on art, history and culture, while her husband Dr. Rolf Böge combines his passion for boats and sailing with historical and current events.

Depending upon the circumstances, it is possible that other lecturers will be on board for this trip.

## World heritage sites, stunning beaches, historical sugar cane plantations and Cuban vibes: Havana – Montego Bay

### Mythical Havana

With its coastal promenade, the Malecón, and a magnificent Old Town, which is a protected UNESCO World Heritage Site, the capital of Cuba is a feast for the eyes for those who love to discover a city by foot. Against the backdrop of imposing facades, intriguing passageways, music-filled streets and American vintage cars, you will feel the joie de vivre go up another notch.

### Beaches as white as snow

Beach lovers, sun worshippers and snorkellers will keep Isla de la Juventud and Maria la Gorda forever in their minds. These beaches are practically untouched and are still considered an insider tip.

### Trinidad's Old Town

Trinidad de Cuba is a small, friendly place with a long history as the hub of the sugar cane farming industry. Its enchanting location directly on the sea, lovingly restored facades and gentle pace of life can be easily enjoyed in one of the town's beautiful squares or by exploring the narrow historical alleyways. This small town has a well-deserved place on the UNESCO World Heritage list.

### Vibrant Cuban music

If Cuba is the birthplace for almost every style of Latin-American dance, then Santiago de Cuba is the stage. Nowhere else will you find as much live music or as much dancing. In the town's clubs, bars and schools you will find salsa, son and rumba rhythms that are just as thrilling as in the world-famous Buena Vista Social Club. A band will also perform on board.

## The oldest city in the New World, French flair and a hideaway for the jet-set: Montego Bay – Barbados

### The British Virgin Islands – a sailor's paradise

Days spent lounging in the sun, reliable trade winds, small islands floating on the horizon, and a tall ship with timelessness entangled in its sails. Enjoy a relaxing feast for the senses aboard the **SEA CLOUD**. Watch in amazement as the team manoeuvre the ship before dropping the anchor on a new beautiful shore.

### A day at the beach on Jost van Dyke

Jost van Dyke is the smallest of the main British Virgin Islands. This mountainous island is characterised by its volcanic beauty and features a beach much loved by sailors – the White Bay. We take the zodiac ashore to enjoy a relaxed day, not only on and in but also under the water, followed by some delicious culinary delights served from the beach barbecue at "Ivan's Stress-Free Bar".

### The jet-set island of St Barts

Although many like to call it "St Barts" for short, the island's official name is St Barthélemy. Having passed through several different owners, the land was finally bought by France in 1877 and is now firmly in the hands of the jet-set. Elegant Gustavia entices with luxury and glamour hidden away behind restored facades, and the harbour hosts luxury yachts with famous owners.

### Also on board: Dr. Constantin Elfe

Although born in Berlin, Constantin Elfe's schooling, his degree in history, politics and American studies and his career have all led him overseas. A keen sailor, Dr. Elfe has been working as a lecturer on our trips for many years and also works for the German parliament.

Depending upon the circumstances, it is possible that another lecturer will be on board for this trip.

## Majestic volcanoes, sensational beaches and idyllic anchorages in the Caribbean Sea: Barbados – Barbados

### The natural beauty spots of St Lucia and Dominica

The pitons of St Lucia are world famous and magnificently beautiful. But perhaps even more beautiful is the unique view you have of this stunning natural masterpiece from the SEA CLOUD's anchorage. Dominica is one of the wildest and most primal of the Lesser Antilles. The heart of the island is covered in thick virgin forest, where you will find plunging rivers and small creeks winding their way through the jungle.

### Bequia and the Tobago Cays – a haunt for sailors

The small town of Port Elizabeth on Bequia is a place for sailors to meet and catch up, either on the local beach or in front of the town's small bars. The small archipelago of the Tobago Cays offers protected anchorages in its lagoons – beach heaven awaits you!

### Snorkeler's paradise in the Tobago Cays

A unique feature of the Tobago Cays is its pristine coral reef, christened the "Horseshoe Reef" due to its shape. It keeps the Atlantic swells away and is the perfect place to go snorkelling. Once you are back on dry land, you will be treated to a beach barbecue with culinary delights.

### French style on the Îles des Saintes

Although the Isles of Saints make an extremely welcoming impression, the sight of the historical Fort Napoleon towering over the main island is a reminder of less peaceful times. This small town's promenade is perfect for taking a stroll and enjoying the sense of "savoir vivre" against the backdrop of the glowing pastel colours of the Caribbean.

### Let the wind set your course – the Atlantic Crossing: Las Palmas – Barbados

#### For sailing enthusiasts:

#### 16 days of pure sea and sailing

Nothing but the region's trade winds set your exact westward course as the elements take control. The SEA CLOUD II takes you back to a time when tall ships were the masters of the sea. Enter a world where traditional seamanship is still very much alive.

#### Cruise along the Columbus route

This course, discovered by the famous Genoese Columbus during his Atlantic crossing in 1492, has been sailed by several generations of explorers, adventurers and conquerors. This is due to its prevailing winds and streams which offer ideal sailing conditions on the journey to the New World.

#### Plenty of time for relaxation

"The shortest path to oneself leads around the world," so the saying goes. On board the SEA CLOUD II, all you will need are 14 magnificent days: simply set sail, enjoy the tranquillity, look out onto the horizon, and feel free. You will finally have time to get started with a good book, meet interesting people, and refresh your mind. All the friendly faces on board will add to the relaxed atmosphere in their own way.

#### Two lecturers accompany the trip

Interesting facts, exciting themes and entertainment – our experts are on hand to give talks on a wide variety of specialist subjects. They are also on board to answer any questions you may have.

#### SEA CLOUD II

#### Our travel tip: Gran Canaria

In order to be absolutely sure that your luggage comes with you on the Atlantic crossing, we recommend that you arrive in Las Palmas at least a day in advance:

Pre-cruise stay in Las Palmas from 27 Nov. to 28 Nov. 2012. One night bed and breakfast in a first-class hotel, including transfer and island trip.

#### Rates upon request.

Minimum number of participants: 10 people

#### Our travel tip: Lesser Antilles

Prolong your cruise in the same cabin for an extra eight days on board from/to Barbados from 13 Dec. to 20 Dec. 2012 at our attractive additional price.

#### See insert for rates.

### The natural beauty of the Grenadines: Barbados – Barbados

#### Luscious tropical flora in Trinidad

The national flower of Trinidad is called the Chaconia, named after the island's most influential governor. It is a type of wild poinsettia and grows to an imposing height of three metres. The trees of the rainforest grow even taller. One of the biggest is the Poui. It reaches a height of around 40 metres and is adorned with a sea of pink or yellow blossom.

#### Snorkeller's paradise in the Tobago Cays and the beaches of the Grenadines

Idyllic bays, beautiful beaches, and the turquoise-coloured sea are perfect for swimming or sunbathing. A short distance away from the anchorage of the SEA CLOUD II at Bequia awaits the Princess Margaret Beach. It was given its name after a visit from the British princess, who found the beach simply stunning. The Tobago Cays, a group of five small, uninhabited islands, can only be reached by boat. Underwater lies a unique and alluring world of plants and sea creatures, and on the shore you will find a beach barbecue for that real Caribbean feeling.

#### The magnificent Pitons of St Lucia

They could have come straight out of a tropical storybook – Gros and Petit Piton, the two famous volcanic plugs that tower over St Lucia. They are one of UNESCO's World Heritage Sites and provide you with a spectacular panorama as the SEA CLOUD II sails closely alongside their slopes.

#### EXTRAS

\* These excursions are included in the cruise-only rate.

## Every day is a gift – with silent nights under the stars and all the variety of the Lesser Antilles and the Grenadines.

### Tobago Cays – a paradise for snorkelers

Far away from everyday life ashore lie five uninhabited islands surrounded by a turquoise sea, just waiting to be discovered. Their name? The Tobago Cays. Four of the islands are surrounded by a protective, horseshoe-shaped coral reef. This is an ideal place for snorkelling and a refuge for rare marine wildlife.

### The magnificent Pitons of St Lucia

The two famous volcanic cones, which look like green "sugar loaves", dominate the south of the island of St Lucia. Our anchorage at Soufrière gives you a front row seat of the views over these natural wonders. The Pitons are part of the volcanic landscape and protected as a UNESCO World Heritage Site. They have been extinct for many years, but the sulphur springs that surround them still bubble away in various picturesque shades of yellow.

### The dreamy beaches of the British Virgin Islands

The beaches on the British Virgin Islands of Virgin Gorda and Jost van Dyke are truly unique. On Virgin Gorda, the picturesque rounded granite blocks of "The Baths" form a labyrinth straight from a fairy tale, while on Jost van Dyke you will find row after row of palm trees. In particular, White Bay, as its name suggests, boasts fine sand as white as snow. It is the perfect location to delight your senses with our beach barbecue.

### The jet-set island of St Barts

Its official name is St Barthélemy, but most people fondly refer to it as St Barts. It was back in 1957 that the banker David Rockefeller built the first paradise getaway here, and today the island remains a hideout

for the jet-set, including several American film stars. Take a stroll through the capital Gustavia, browse the shops for treasures and specialities, or enjoy a sundowner in the unique harbour surrounded by bars, cafés and restaurants. Come at New Year and witness the arrival of several mega-yachts.

### Steel and reggae bands in Shirley Heights, Antigua

Shirley Heights is actually a small hill with an old fortress offering a breathtaking panoramic view of the Antigua coastline. But at the weekends, there is much more to enjoy here than just the picture-perfect view of the sea: celebrations, dancing and private barbecues are accompanied by live music from steel and reggae bands. It is all about diving into Antigua's "joie de vivre" and being swept up by the vivacity and rhythm while the sun sets into the sea.

### Two lecturers accompany the trip

The geophysicist and astronomer Prof. Erich Übelacker and his wife, Heidemarie Übelacker-Bröring, will be on board throughout the journey. Artist, social pedagogue and art teacher Heidemarie gives painting classes, while her husband takes care of all "matters celestial". Prof. Übelacker has gained an outstanding international reputation at the Hamburg Planetarium, as an adviser to UNESCO and in the training of US astronauts. He is a scientific author, a popular commentator and much in demand as a public speaker.

Depending upon the circumstances, it is possible that other lecturers will be on board for this trip.

### The Leeward Islands and the best hideaways in the sea of buccaneers: Barbados – Antigua

#### The natural beauty spots of St Lucia and Dominica

The Morne Trois Pitons National Park in Dominica and the volcanic landscape which surrounds St Lucia's two Pitons have been awarded a special title: they are a UNESCO World Heritage Site.

#### The famous seafarer hideouts of Bequia, Jost van Dyke and Virgin Gorda

It was once notorious pirates who used to hide out in the protected bays of these three Antilles islands. Now it is a place to escape the usual hustle and bustle. You will find it easy to give in to the infectious "joie de vivre" here in the rustic beach clubs, palm-shaded bars, beautiful beaches, and in some of the most popular yacht clubs.

#### The savoir-vivre of the Îles des Saintes

This French archipelago has been part of France since the 17th century. Overlooked by a historical fort, the charming town of Terre-de-Haut presents you spectacular views of the surrounding bays. Its boutiques, bars, restaurants, and cafés are also definitely worth exploring.

#### The jet-set island of St Barts

St Barts has been cultivating a mix of luxurious style with a laid-back Caribbean attitude for over 40 years. No surprise then that Hollywood stars are often spotted here diving into the sea, or that celebrities meet up at Gustavia to go shopping. Mega-yachts lie anchored in the harbour, and hiding behind the town's picture-perfect colonial facades, you will find luxury elegance – tax free!

#### A lecturer accompanies the trip

Exciting topics and fascinating facts – our expert offers talks on a whole range of subjects from his specialist field.

## Tropical paradise, idyllic stopovers and freedom beneath the sails: Antigua – Barbados

### The British Virgin Islands – a sailor's paradise

For many, the waters surrounding the British Virgin Islands are one of the most beautiful places to sail in the world, with perfect wind conditions, endless turquoise sea, and views of several small islands. However, the area is also marked by its perfect natural harbours, its magnificent white beaches, and a passage whose sailing legacy is already signified by its name – the Sir Francis Drake Channel.

### “The Baths” – imposing granite formations

In Virgin Gorda you will find one of nature's most beautiful phenomena – “The Baths” National Park. Huge, rounded granite blocks, both on the beach and in the water, provide a breathtaking backdrop to any beach activity.

### Day at the beach with barbecue on Jost van Dyke

It seems as though Jost van Dyke was the birthplace of effortless relaxation; barefoot, of course, in soft white sand. Our zodiac takes you to a picture-perfect beach where you can do as you please: snorkelling, swimming, sunbathing or dreaming under the palms. And there is also the beach barbecue in “Ivan's Stress-Free Bar”.

### Dominica – the Caribbean's tropical side

A hike through the Cabrits National Park allows you to enjoy the island's luscious tropical setting. The walk is led by Dr. Lennox Honeychurch, an anthropologist who has written several books about Dominica. He is also a painter, lecturer, and a researcher.

## The scent of spices, the sounds of joie de vivre, and freedom beneath the sails: Barbados – Curaçao

### A day at the beach on the popular sailor's island of Bequia

The **SEA CLOUD II** drops anchor in Admiralty Bay at Port Elizabeth on Bequia. It is the meeting place for round-the-world sailors and private luxury yachts. Our zodiacs bring you to the town or to one of the island's most beautiful beaches. You will have plenty of time for whatever you choose, be it swimming, snorkelling or taking a stroll.

### A treat for all the senses: Grenada, the island of spice

It is no coincidence that the nutmeg seed is a feature of the national flag. Since colonial times, this spice, along with cloves and ginger, has been one of the island's most valuable exports. If the aromatic fragrance of the tropics were to have a name, it would have to be "Grenada".

### Experience the Caribbean joie de vivre with string and steel bands

Be it salsa, merengue, soca, calypso or steel pan rhythms, each of these very different music styles has one thing in common – they all capture the heart and soul of the Caribbean. This rhythmical joie de vivre is, of course, welcome on board – in Bequia a string band will perform on the **SEA CLOUD II**.

### Idyllic sailing along the trade winds

In winter and spring the Caribbean trade winds provide ideal speeds and perfect stability, while delivering extremely pleasant air and water temperatures. The hours out at sea will turn into a real joy.

### A lecturer accompanies the trip

A lecturer will accompany this trip to deliver interesting and informative talks on a range of specialist subjects.

## Pre-cruise programme included

## The Dutch Antilles and the lifelines of Central America: Curaçao – Puerto Limón (San José)

### The C of the ABC islands: Curaçao

The coastal waters of Curaçao are a marine conservation area and its small capital, Willemstad, is a UNESCO World Heritage Site with a lush natural setting, swaying palm trees, beaches, art galleries, and historical buildings that have been lovingly restored. Take your time to discover them all. Three brilliant, relaxing days await you.

### Fascinating Panama

Panama has one of the most diverse ranges of animal and plant species in the whole of the Americas. Lake Gatún was created during the construction of the Panama Canal and the site has become a paradise for flora and fauna. On the largest island, scientists from all over the world try to reveal the jungle's remaining secrets.

### The marine national park in Bocas del Toro

Close to the small town of Bocas del Toro lies the protected island of Bastimento. Untouched rainforest, numerous beaches, large pristine coral reefs, and a unique underwater world are the trademarks of this island. Even pods of dolphins can be seen taking the odd break in its crystal clear waters.

### Idyllic sailing along the trade winds

Every day the crew climb up the masts to hoist the sails, and every hour the trade winds provide the tall ship with everything it needs to show just what it is made for.

### A lecturer accompanies the trip

A lecturer will accompany you on this trip to deliver interesting and informative talks on a range of specialist subjects.

### Passage through the Panama Canal

The idea to build a canal linking the Atlantic and Pacific Oceans dates as far back as 1523. But not until the end of the 19th century did the French dare to build an artificial waterway at the narrowest point in Central America. Over the next hundred years, the canal project developed into a major disaster, which only ended in 1914.

### The jungle paradise of Darién

The Darién National Park is among the least-researched regions on Earth. Travel by boat through the seemingly impenetrable jungle and find indigenous tribes living in small villages in the rainforest.

### The uniquely diverse wildlife and plants of Costa Rica

Costa Rica is an absolute paradise for nature-lovers: Over a quarter of the country is protected and twelve different areas of vegetation lie within its borders. No wonder then that there is no shortage of unique flora and fauna

### A scientist accompanies the trip

The fascinating flora and fauna in Costa Rica's national parks are bound to throw up questions. Therefore a scientist with a detailed knowledge of the region's various ecosystems will be on hand to answer them. He will give presentations and accompany the shore excursions.

## S Special offer

### From Costa Rica to Cuba – seven countries in thirteen days: Puerto Limón (San José) – Havana

#### Several relaxing days at sea

Besides crossing worlds and discovering new lands for four whole days we let relaxation take a front seat on our yacht. Plenty of time to enjoy life under the white sails and to be spoilt in every way.

#### The world's second largest coral reef

The Belize Barrier Reef contains countless small coral islands. The Lighthouse Reef Atoll features a particularly special natural wonder: the Great Blue Hole, a circular submarine sinkhole and UNESCO World Heritage Site. Snorkelling is obviously another great way to discover the impressive beauty of the reef.

#### Mayan cities in Mexico and Belize

The culture of the Mayans, which began roughly 5,000 years ago and ended around the time of the Spanish conquest, is still a mystery. On our trip you will discover three Mayan strongholds: Tulum, in Mexico, is the only Mayan city situated on the coast; Altun Ha and Lamanai are in Belize. Lamanai remained populated for roughly 3,000 years. Excavations have revealed that over 20,000 people lived here around 700 A.D.

#### Two lecturers accompany the trip

Even during her degree, Marion Tippmann-Böge was able to pursue her interests in prehistoric studies, ancient history, archaeology, ethnology, art history, pedology, and tourism management. She has worked for museums and conventions, as well as on research trips. Dr. Rolf Böge is a trained tax adviser with a sea captain's license. His talks are inspired by historical topics, special customs at our destinations and his passion for ships and seatravel.

Depending upon the circumstances, it is possible that other lecturers will be on board for this trip.

## Sunny views on swinging Easter holidays, along with the many picturesque sights of Cuba: Havana – Santo Domingo

### Historical Havana

Imposing fortresses, baroque churches, palaces and lively shopping streets are what define Havana's Old Town. It is not only a UNESCO World Heritage Site, but a well-known place to spot American vintage cars and to stroll down come sunset.

### Cuban beach heaven

On the Isla de la Juventud and in Maria la Gorda there is much to admire both in, on and under the water: solitary picture-perfect beaches with palm trees, a warm, gentle sea sparkling in numerous shades of blue and a coral reef with perfect snorkelling conditions.

### Trinidad's Old Town

Beautifully restored colonial facades, languorous alleyways, and a turquoise sea right on your doorstep – the Old Town of Trinidad de Cuba is an exceptional treasure and one of UNESCO's World Heritage Sites.

### The spirit of salsa – a Cuban creation

Salsa came from a mix of Caribbean rhythm and American jazz. True Cuban artistic legends came together for the "Buena Vista Social Club" project, which was mainly devoted to son, another Cuban music style. In the clubs of Santiago de Cuba, and in an evening performance live on board, you can experience both the spirit and the melancholy sentiment of these songs.

### Also on board: Dr. Constantin Elfe

Dr. Elfe is a passionate sailor who studied history and politics, as well as American studies, and who works for the German parliament. His talks cover a wide range of topics.

Depending upon the circumstances, it is possible that another lecturer will be on board for this trip.

### Picturesque island treasures, famous pirate trails, and a haunt of celebrities: Santo Domingo – Antigua

#### The British Virgin Islands – a sailor's paradise

In the waters surrounding the British Virgin Islands, where explorers and pirates once roamed, you will find some of the finest sailing conditions on the planet. These islands include Virgin Gorda, Jost van Dyke, and all the tiny islands around the Sir Francis Drake Channel, each marked by glorious beaches and delightful anchorages.

#### "The Baths" – imposing granite formations

It is sometimes easy to think that this is one of nature's fairy tales: Once upon a time, there was a giant who played with large stone marbles. His favourite playground was in Virgin Gorda, a place now called "The Baths" – a gigantic rock labyrinth made out of circular-shaped granite.

#### Day at the beach with barbecue on Jost van Dyke

The word "stress" does not exist on Jost van Dyke. The zodiac takes you to the shore where you can go snorkelling, swimming or indulge in other water-based activities. After that, a beach barbecue in "Ivan's Stress-Free Bar" awaits you.

#### The jet-set island of St Barts

St Barthélemy has had several masters: the Spanish, the Swedes, the French, and the Maltese order of knights. Now it is firmly in the hands of the jet-set who come here to treat themselves to a nice little break, far away from the hustle and bustle of the world. All of the yachts in the harbour are worth a look, as are the bars and restaurants.

## Clearly more: the many inclusive services on board the yachts of SEA CLOUD CRUISES.

Our five stars fulfil the highest demands. They are a promise of safety, true relaxation and real pleasure. All the special little details and extras, which are included on board the SEA CLOUD CRUISES yachts in the cruise rate, are also part of it.

And so you can expect simply more from us. Here is our overview of the main services included:

- Beautifully appointed cabin in selected category
- Welcoming bottle of champagne in your cabin
- All meals (six per day) from early-bird breakfast to the exquisite four-course dinner menu with choice of three main courses
- Two five-course gala dinners during the cruise
- Selected wines and beers thoughtfully chosen to complement lunch and dinner
- All soft drinks and juices throughout the cruise
- All alcohol-free specialty coffees and teas
- Bottled water on the excursions
- Fresh fruit basket in your cabin, replenished daily
- E-mails can be sent free of charge from the on-board laptop
- English-speaking tour guide
- Premium travel documents with detailed destination information
- All port fees

Something to count on: When booking an 8-day cruise, the above mentioned beverages to the value of € 300 per person are already included.

### Useful Information:

#### Currency on board:

Our currency on board is the EURO (€). All major credit cards (Master-Card, American Express and Visa) as well as German EC cards and traveller's cheques are accepted.

#### Dietary requirements:

We are happy to accommodate special dietary requests. Please inform us of these well before your voyage.

#### Internet:

You can access the Internet using an access code (Wi-Fi) via your own laptop or the on-board laptop. This is subject to a charge. You can get the laptop and access code from reception or from the purser (SEA CLOUD).

#### Dress code:

There is no formal dress code on board except at the traditional Captain's Dinner, when it is recommended that you wear a suit for gentlemen and cocktail attire for ladies.

#### Restaurant:

Meals are served in one sitting with open seating. Meal times are printed in the daily on-board programme.

#### Electric voltage:

The voltage on board is 220 volts. Each bathroom is equipped with a razor socket.

#### Gratuities:

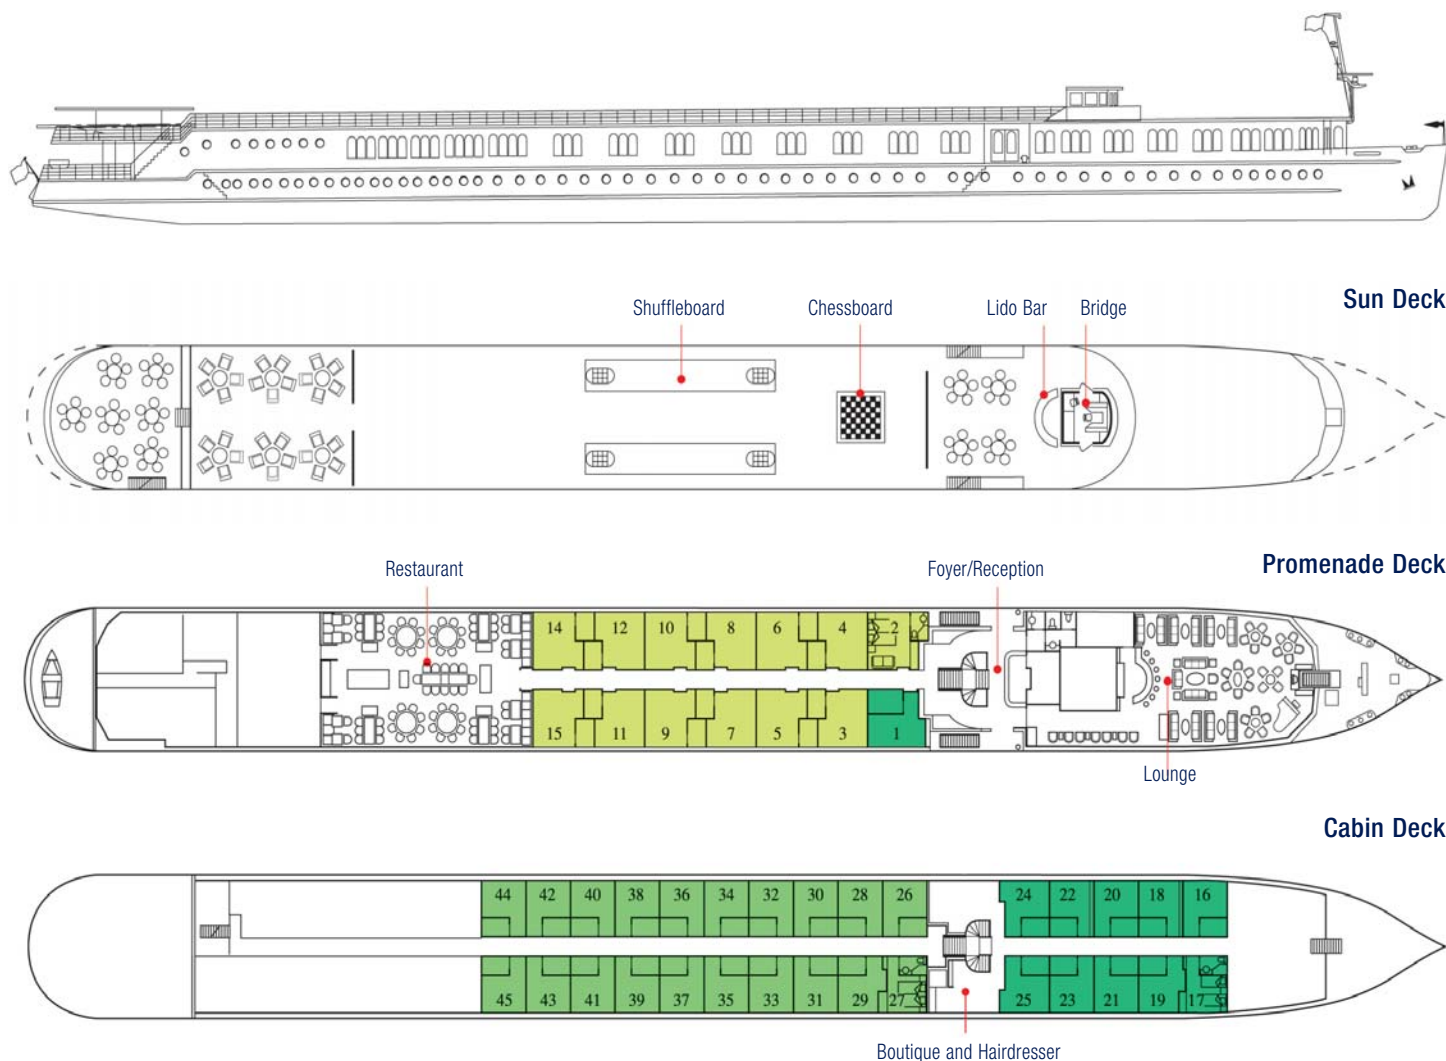

Gratuities are not included and are at each passenger's discretion. At the end of the voyage, designated tip envelopes are available in the lounge. We suggest € 12 per person per day on RIVER CLOUD II and € 14 per person per day on SEA CLOUD and SEA CLOUD II as a guideline.

#### To make your cruise as comfortable as possible:

- Your cabin is equipped with bathrobes, slippers, a hair dryer and magnifying mirror.
- Signature toiletries are provided in the bathroom.
- You can borrow books from our on-board library free of charge throughout the voyage.
- Bicycles are available on board the RIVER CLOUD II free of charge. On board the SEA CLOUD and SEA CLOUD II, the use of snorkelling and waterskiing equipment is also free of charge.
